

It is long established that the airwaves belong to the public and must be used in a fair and unbalanced way. Sinclair as a media corporation is seeking to unjustly influence this election by requiring all of its many broadcast TV stations to air a documentary that no one denies is biased against one of our presidential candidates. I doubt this is in the public interest. I call upon the FCC to force Sinclair to cease and desist this activity or offer the maligned candidate equal time (both in minutes and in exposure measured via ratings points).
